## Notes

- Speak to your Care Partner and ask for a quote on services not listed in the guide, such as Allied Health/Other (e.g. Music Therapy, Acupuncturist, Chiropractor).
- Self-Funded Services: Additional care and services can be purchased and paid privately by you.
- Standard Hours – Monday to Friday: Daytime 6am–8pm; Night-time 8pm–6am.
- Cancellation: Full fee may apply if cancellation is made with less than 7 business days’ notice.
- Prices in this printed schedule have been rounded to the nearest whole dollar for readability. Actual invoices are calculated in line with the official Support at Home pricing and may include cents.

## Travel Policy

Travel is applied in accordance with Support at Home pricing guidelines. Travel to and from a participant’s home is generally incorporated within the hourly service rate. Where additional travel is required outside the standard service area, travel may be charged separately, where permitted under the government service list and pricing rules. Any applicable travel charges will be communicated in advance.

## Subcontracted Allied Health Services

Where services are delivered by associated providers, Your Enabled Services retains clinical governance and compliance oversight. Pricing may include the clinician’s subcontracted fee and a management component to support coordination and regulatory compliance, in accordance with Support at Home pricing rules.

## Pricing Structure Statement

Allied health pricing reflects clinician costs, insurance, documentation, governance, and administration, along with a reasonable sustainability margin. All prices remain subject to government price caps from 1 July 2026.

## Package Management

Package Management covers the financial administration of a participant’s Support at Home funding, including budget monitoring, invoice processing, claims, reconciliation, and compliance reporting. This cost is included within the quoted service price.

## Care Management

Care Management ensures services remain safe, appropriate, and responsive to changing needs. This includes assessment, care planning, risk monitoring, coordination with health professionals, incident oversight, and service reviews.
